## EXPERIENCE

**Front End Developer | Codesbreak, Uttara, Dhaka, Bangladesh**

**October 2024 - Running**

- Worked with designers and developers to turn UI/UX designs into fully responsive, user-friendly web pages with smooth visual and functional integration..
- Integrated APIs and dynamic content in collaboration with back-end teams, improving interactivity and overall functionality.
- Implemented secure online payments using the Stripe API, providing a smooth and reliable checkout experience.

**Front-End Developer | Notunshokal, Dhaka, Bangladesh**

**March 2022 - January 2024**

- Built and optimized modern web applications using React.js, Tailwind CSS, and Next.js, focusing on performance and maintainability.
- Led API integrations and handled dynamic data rendering to create seamless, interactive user experiences.
- Optimized web performance and SEO using Next.js features like server-side rendering (SSR) and dynamic routing to improve search visibility and load times.

## PROGRAMMING & WEB SKILLS

- **Expertise:** JavaScript, ES6, TypeScript, React.js, Next JS, HTML5, CSS3, Formik/React-hook, Tailwind CSS, ShadeCn, Firebase, Prisma, Stripe payment system, Redux & Redux Toolkit, Google Analytics, Gsap, Framer motion, RESTful API, MongoDB, Express JS, Node JS, JWT, Playwright.
- **Comfort:** React Native, C, Python, Java
- **Tools:** Github, Figma, Chrome Dev Tool, Netlify, Heroku, VS Code

## PROJECTS

**Online Tools** | - [Live Site](#) | - [Frontend Code](#) | - [Backend Code](#)

- Developed a fully responsive web app using Next.js, React, and Tailwind CSS to offer multiple tools like Image to PDF, Merge PDF, DOC to PDF, and more.
- Integrated client-side file processing using libraries like PDF-lib, jsPDF, and Pica, allowing users to convert or edit files directly in the browser without a server.
- Designed a user-friendly interface with drag-and-drop file upload, real-time previews, and instant downloads to ensure a smooth user experience.

**School Manegment** | - [Live Site](#) | - [Frontend Code](#) | - [Backend Code](#)

- Developed a responsive School Management Dashboard using Next.js, React, and Tailwind CSS for admin control.
- Built core features like student management, attendance tracking, class assignments, and accounting management with a clean, user-friendly interface.
- Used React Hooks and Context API for smooth state handling and implemented a secure admin login system.

## EDUCATION

**Grassroots College of Technology, Faridpur - BSc in CSE**

CGPA-3.22
